Starting point

Current situation

The Swiss Federal Act on the Licensing and Oversight of Auditors (Audit Oversight Act, AOA) and the Ordinance on the Licensing and Oversight of Auditors (Audit Oversight Ordinance, AOO) require that individuals and audit companies be approved by the **Federal Audit Oversight Authority (FAOA)** to provide audit services. To this end, the FAOA maintains a public register of licensed auditors.

The requirements to be approved as an audit expert or auditor are set out in section 4 of the AOA (training, professional practice, reputation). Also formulated there are the additional requirements for individuals who have completed their training abroad.

Individuals who have completed **outside of Switzerland** a training (including education and experience) that is comparable to Swiss qualifications may apply to the FAOA for approval and registration in the auditors' register. Among the conditions to the granting of such approval is the proof by the applicant that he/she possesses the required knowledge of Swiss Law.

The examination

According to sections 6 and 34 AOO to prove such sufficient knowledge of Swiss Law the applicants are required to pass an examination organized under the supervision of the FAOA. The FAOA has delegated to EXPERTsuisse Ltd. the organisation of the examination and approved the regulations prepared by EXPERTsuisse for such examination. Candidates will have the choice to take the examination in German, French, Italian or English. The next examination is scheduled to take place in November 2019.

The course

Candidates are not required to follow any particular preparation course in order to take the examination. However, EXPERTsuisse continues to offer a course with the purpose of preparing the candidates to such examination. The course is conducted entirely **in English** and runs over four days. The next course is scheduled to take place in November 2019 in anticipation of the examination in November 2019.

Course programme and examination subjects

Course: «Swiss Law for Foreign Accountants – Preparation course for the certificate of required knowledge of Swiss Law in accordance with the Audit Oversight Act (AOA)»

The course will be conducted **in English**. However, it is necessary to have sufficient knowledge of at least one of Switzerland's official languages (i. e., German, French and Italian) as certain statutes and other supporting materials are available only in these languages.

As English is not an official language in Switzerland, there is no official translation of the Swiss statutory provisions. English translation of certain Swiss statutes are available on the Confederation's official website (www.admin.ch/bundesrecht) or from the Swiss-American Chamber of Commerce including the Audit Oversight Act (available at <http://www.amcham.ch>). Please note that only the versions in official languages (i. e., German, French and Italian) of Swiss statutes are legally binding.
